# History Milestones

A circular icon containing a target symbol with a black arrow hitting the bullseye.

## MISSION

Quality is the foundation of our business. Our mission is to provide the best silicone rubber products with fine technology and fast L/T to support our customers.

A stylized eye icon with a blue iris and black pupil, set against a white background.

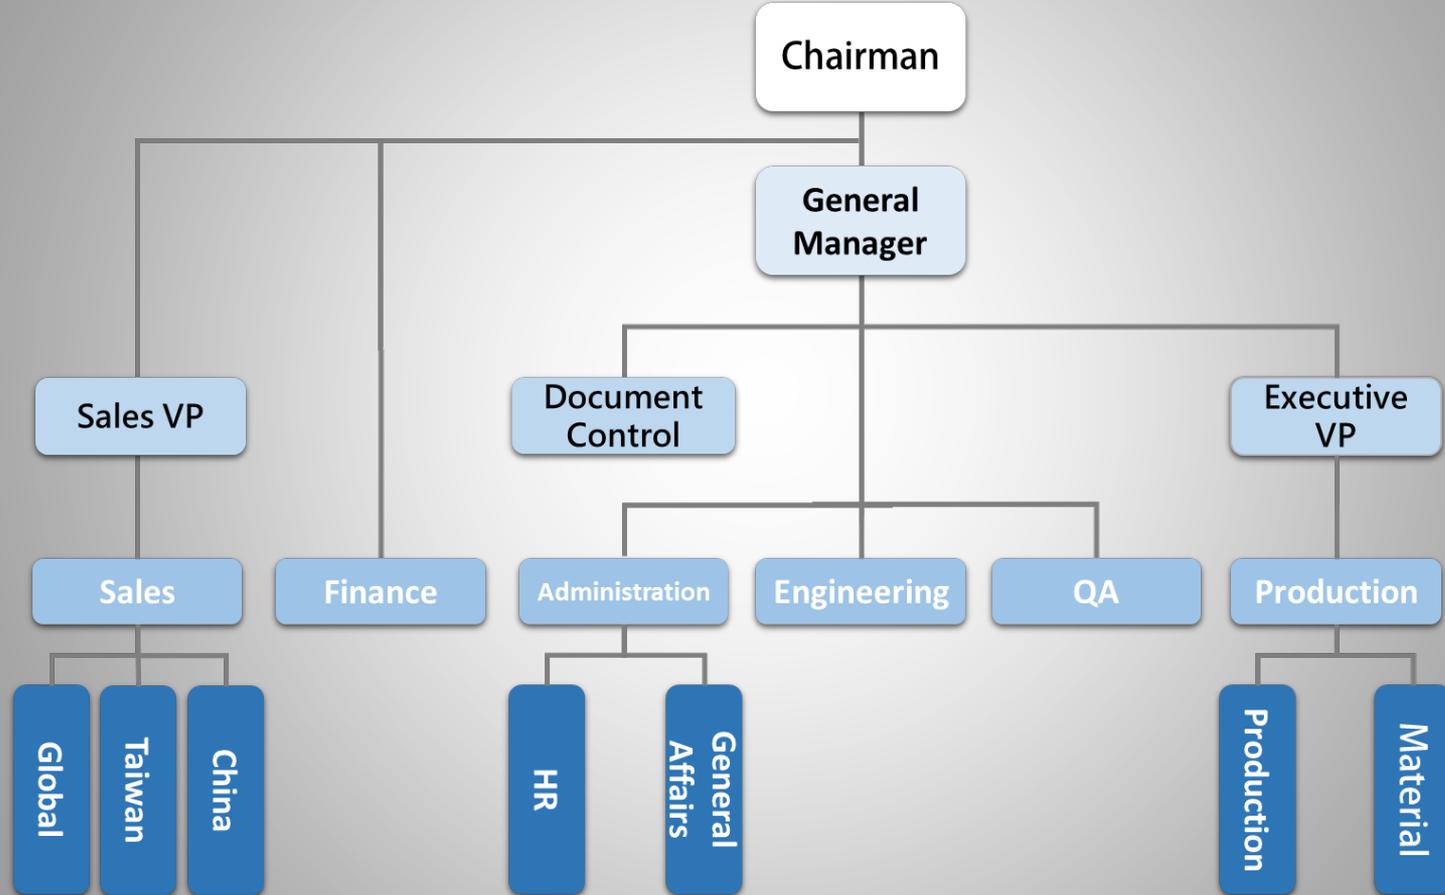

## VISION

GSUN is devoted in resources integration, aiming to be the leading company in the field!

# Product Category

# Silicone Zebra Connector

Silicone zebra connector is reliable and stable, widely applying to various LCD panels to be the bridge of LCD panels and the PCB, such as phone screen, car control screen, industrial device screen, instrument panel, and so on.

- GSI/GSI2 TYPE
- GSS TYPE
- GSG TYPE
- GSS-DM(SPACER)
- Odd-Shape(CUSTOMIZED)

# Liquid Silicone Rubber (LSR)

Liquid Silicone Rubber (LSR) is injection molding process technology with countless advantage like product accuracy, high production capacity and so on. Products are widely used on daily necessities, medical electronic, automotive products.

- LSR Single Shot
- Plastic + Rubber/2 shot Injection
- Injection with Assembly

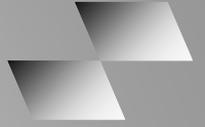

# Silicone Rubber Molding

Rubber keypads can be found all over in our daily life, no matter visible or invisible. They are essential parts of almost all devices.

- Silicone Rubber Keypads
- Silicone Rubber Parts
- Die cut/Adhesive parts
- O-ring/Seal/Gaskets

# Why Choose Us?

- **30+ Years of Experience:** Specializing in automotive, medical, and electronics industries.
- **High-Quality Materials:** Using silicone rubber materials from Shin-Etsu (Japan) and DOWSIL (USA).
- **Quality Assurance:** Equipped with comprehensive inspection tools.
- **Certifications:** ISO 9001, ISO 14001, IATF 16949, ISO 13485.
- **In-House Production:** From mold development to products molding.
